

# Fuel cell power module compact 300

Highly integrated and compact system solution for fuel cell-electric commercial vehicles

Up to  
**300 kW**

of power for more efficiency

Compact  
**design**

Highly integrated system solution for fuel cell-electric commercial vehicles

- Compact and cost-optimized design with one set of fuel cell components and horizontal double stack
- Increased power to 300 kW with improved power-weight-ratio
- Higher level of system integration including DC/DC and coolant pump
- More efficient system layout with improved lifetime
